## Rediscovering WW1

Session 1: Cartoons from the Trenches - Humour as History

Session 2: Everyday Lives - Home Front snapshots and voices

How can a soldier's trench cartoon express both morale-boosting and stoicism? Satirical social observation as visual narrative humour, sketched in troop newspapers during World War One, provides us with a redefinition of courage as the very act of endurance. The men voiced concerns about daily life in cartoon form - complaints and feelings about officers, medical services, discomforts, food and drink, leave, military routines, and their expectations versus emerging reality. Is what they omit as significant as what they mention?
